

# DRIVE VALIDATION

Authorized  
Distributor

A ROCKWELL AUTOMATION PARTNER

## REDUCE YOUR RISK WITH VFD DRIVE VALIDATION SERVICE

Is your variable frequency drive (VFD) installed correctly? Were the right motor parameters configured? Are extended warranties still available?

When you enlist our trained and certified service engineers to validate installation and configuration of your VFD's, you'll be able to reduce installation risks and premature equipment failure. Along with the comfort of knowing your drive was installed correctly, you can take advantage of our offered warranty extension up to two years from start-up date to 30 months beyond manufacture date.

### STARTUP INCLUDES:

- Pre-configuration checklist
- Physical inspection and verification of proper drive and motor installation practices
- Verification of external control wiring
- Confirmation of drive cabling to motor, line feed, and isolation transformer (if applicable)
- Adjustment of operating parameters, within drive and motor design limitation, to appropriate application values
- Operation of drive through full speed range to verify performance
- Configuration of drive networking parameters (Ethernet, ControlNet, DeviceNet)
- Post configuration documentation and program delivery

### EXCLUSIONS:

#### Complex applications included:

- Coordinated drives
- Positioning & encoder feedback
- Presses
- People moving
- hoists & cranes
- Torque proving applications

#### PowerFlex 527

#### PowerFlex 755T

#### Drives in MCC Sections

### PRICING:

#### Drive 753/755 (Excludes 755T)

- Frame 1-5 \$500
- Frame 6-7 \$800

#### Series 523/525

- Frame A-E \$500

#### Powerflex 400

- Frame C-H \$500
