# EXPRESS WIREWAYS

## 2.7 Under-Carpet Wireway Express Kit

A hidden solution for power & data used in spaces with carpet tiles.

- *Most popular Express Kit*
- *Elegantly disappears under carpet tiles*
- *Most forgiving install*
- *Don't have to cut carpet*

SKU	DESCRIPTION	INCLUDES	TECH INFO
XP-UN-096-288Q	8' Wireway with quad receptacle	24' pre-wired power infeed, top cap, bottom track, ABS plastic and MDF ramps, wall base trim	<ul style="list-style-type: none"> <li>• Holds (0-4) Data Cables</li> <li>• 1000 lb load test</li> </ul>

## 2.7 On-Floor Wireway Express Kit

Installs on top of any flooring to supply power & data where it's needed.

- *Smallest footprint on-floor*
- *Quickest install*
- *Durable anodized aluminum finish*

## Optional 6' Wireway Extension

Allows on-floor system to extend up to 12' length.

- *Cuttable in field for exact sizing*

SKU	DESCRIPTION	INCLUDES	TECH INFO
XP-ON-072-288Q	6' Wireway with quad receptacle	24' pre-wired power infeed, top cap, bottom track, end component, wall base trim	<ul style="list-style-type: none"> <li>• Holds (0-4) Data Cables</li> <li>• 1000 lb load test</li> </ul>
ON-2.7-072-AL	6' Wireway Extension	Top cap and bottom track (uses wall base trim and end component from original kit)

# CARHARTT CARE PACKAGE PROMOTION

 **Capital Electric**  
A Sonepar Company

 **Acuity Brands**

***From January 1 to  
February 28, 2021,***

**for every \$250.00 or more spent at  
Capital Electric store counter  
locations on **Lithonia, Juno and  
Sensor Switch** product on a single  
ticket, earn a chance to win  
a Carhartt Duffel Bag!**

***Plus, you get all the goodies  
that come along with it:***

**Carhartt Jacket  
Carhartt Hoodie  
Carhartt Button-Up Shirt  
Carhartt Hat**

## ***How do you win?***

Promotion is tracked by Capital Electric corporate on your behalf. At the end of the promotional period, local Capital Electric branches will be notified of their winner, and will contact the winning customer to obtain their apparel size and will arrange for care package pickup.

Terms and Conditions: This is not a game of chance. Void where prohibited. Offer valid on purchases made from January 1 - February 28, 2021. While supplies last. Capital Electric reserves the right to limit purchase quantities or cancel promotion at any time at its sole discretion without prior notice. All federal, state, and local laws and regulations apply. Redemption items will be provided according to the rules outlined in the promotion. Offer valid only for product end users. No cash value. Offer not valid with any other offer or promotion. Capital Electric reserves the right to substitute items based on manufacturability at our sole discretion. Each invoice may only be submitted once. Employees of Capital Electric, its suppliers, and their immediate families and household members are not eligible to participate. Immediate families include spouses, parents and step parents, siblings and step siblings, and children and step children. Any tax obligations relating to the prizes are the sole responsibility of the prize winner. In the event of dispute, the decision of Capital Electric is final.

For internal use only:

Use duffel bag for store display and hold for branch winner until branch is notified by corporate. Apparel items will arrive to branch at the end of the promotional period after determining winner's apparel size.

## Sales Note

### Arc flash relays

# BUSSMANN SERIES

Eaton's Bussmann™ series arc flash relay (EAFR) provides unmatched switchgear protection. This relay reduces arc flash energy by quickly clearing the current feeding the arc. The sensitive light inputs with current permissive detection identify multiple arc fault conditions.

The EAFR works to detect and clear faults faster than traditional methods in medium and low voltage switchgear, and the arc flash relay modules and sensors allow for simple integration into electrical assemblies.

Flexible module options allow installers to choose between fiber optic loop cable and wired point sensors

The system can measure both light and current to eliminate nuisance operation, and offers an innovative modular design that allows for simple integration into electrical assemblies, ideal for both new and retrofit installations. The system also helps address arc flash safety concerns outlined in National Fire Protection Agency (NFPA) standard 70E, which covers employee workplace electrical safety requirements.

Bussmann series arc flash relays are now sellable through the Bussmann division.

### Applications/installations

- Low voltage switchgear/switchboards
- Medium voltage switchgear
- Low/medium voltage motor control centers

### Typical customers

OEMs for:

- Low voltage and medium voltage assemblies

### Markets

- Oil and gas
- Industrial
- Commercial or institutional infrastructure
- Electric utilities

### Target regions and countries

- United States

### Key features and benefits

Feature	Benefit
An innovative module system allows for simple integration into electrical assemblies.	Ease of installation
Sensitive light inputs with current permissive detects low power phase to ground arc faults.	Arc flash reduction
The relay's configurable setup provides optional system selectivity, opening the circuit breaker closest to the arc flash.	Minimizes downtime
Flexible module options allow installers to choose between fiber optic loop cable or wired point sensors.	Ease of installation
If the point sensor option is selected, the relay can be wired and tested, reducing time and labor costs.	Modular design for easier assembly integration

### Customer reaction

Reaction	Reply
I am looking for arc fault reduction in an existing installation. Is this system solely for new assembly builds?	The EAFR system is a combination of arc flash relay modules and sensors designed to detect arc flash events. With its modular design, our system makes an excellent candidate for both new and retrofit installations.
I want to avoid nuisance tripping.	The EAFR system can measure both light and current to eliminate nuisance operation.
Cybersecurity is a main concern.	Because of the simplicity of the system, all monitoring is done through contact outputs on the modules. The advantage of this approach is that cybersecurity issues are nonexistent.

## ULTRA LED™ High Lumen Lamps

### Application

ULTRA LED HID replacement lamps are ideal for indoor high/low bay lighting and outdoor decorative post top fixtures in walkway lighting applications.

### Benefits and Features

- Lasts up to 5 times longer than HID lamps
- No warm-up time, instant on with full light output and stable color
- Consumes up to 76% less energy than equivalent HID lamps while delivering same light output
- Rated for open and enclosed fixtures
- Replacement for 70W-400W HID medium/mogul base applications
- Up to 145 LPW
- 3000K, 4000K and 5000K color temperatures
- CRI 80+
- 360° beam angle (or omnidirectional) with Type V distribution

### Electrical

- 120-277VAC
- Power Factor 98%
- 6kV surge protection

### Rated Life

- 50,000 hours (L<sub>70</sub>)

### Wattage Comparison

Traditional Source	Traditional System Wattage	LED System Wattage	Energy Savings	Energy Savings Over Lamp Life*
HID Metal Halide	70W	18W	74%	\$286
HID Metal Halide	100W	27W	73%	\$402
HID Metal Halide	150W	36W	76%	\$627
HID Metal Halide	150W	45W	70%	\$577
HID Metal Halide	175W	54W	69%	\$666
HID Metal Halide	250W	80W	68%	\$935
HID Metal Halide	320W	100W	69%	\$1,210
HID Metal Halide	400W	120W	70%	\$1,540

# Meter Main Pedestals

*U6220, U6221 & U6226 Series*

*U6434, U6435 & U6436 Series*

U6221 installation in Gambills, Maryland.

## Potential Applications

**Mobile home park needs power distribution with more receptacles.**

Ideal for **mobile homes or RV parks** that have a need for more branch circuits. The U6221 has a slender footprint and offers a defined wireway for the utility line side wire, separate from the end user side. These loads are each metered individually by the local utility.

**DOT needs compact power distribution.**

A **Department of Transportation (DOT)** was looking for a solution to distribute power to their **traffic lights and signals**. Milbank and a local rep worked with the DOT and a local utility to provide a more compact solution.

**Small commercial business needs freestanding single-tenant power distribution.**

Milbank offers several types of meters and meter mains for **commercial businesses**. The U6221 is ideal for a small, freestanding business that may need to **distribute power** to external lighting or signs.

**Lutron DVCL-153P-WH-2 DIVA 2-PACK PROMO WHITE LED DIMMER** [1589368]

The Diva LED+ dimmer provides optimal dimming performance of LED bulbs. This dimmer works with up to 150 Watts of dimmable LED/CFL or 600 Watts of incandescent/halogen, allowing you to control multiple bulb types on the same circuit. It is designed to control a broad range of dimmable LED and CFL bulbs from a variety of brands including Philips, Cree, GE, Eco Smart and Lighting Science. The Diva dimmer features a paddle switch to turn your lights off or on---returning the lights to your favorite level. This dimmer also features a discreet slide control next to the switch, allowing you to adjust the lights for any activity. Package includes (2) Diva paddle style dimmers and (2) coordinating Claro wall plates.

## Most Connected Smart Lighting Control

Caséta works with more smart home devices than any other smart lighting control brand.

# Smart Switch Starter Kit

## Homeowner benefits

- Always come back to a well-lit home
- Easily check which lights are on or off, using the Lutron App
- Add even more convenience by integrating with Siri, Alexa, or the Google Assistant
- Have outdoor lights scheduled to automatically turn on at dusk and off at sunrise

***Take advantage of the geofencing feature to turn lights when you come home***

***Ideal for outdoor lighting***

## Hassle-free scheduling

- Schedule outdoor light changes by sunrise/sunset or time of day
- No need to come back and adjust the schedule for daylight saving time

## Features to sell around

- Once you add the Smart Bridge, it's easy to add additional devices to the system
- Can integrate with the homeowner's favorite voice assistant
- The Smart Bridge doesn't depend on the home's Wi-Fi (if the Wi-Fi goes down, Caséta still works)

## Potential add-ons

- Additional switches or dimmers throughout the home
- Pico remotes for additional points of control

You could also set up Smart Away, geofencing, and other app features, for added value for the homeowner

# Dimmer Kit with Smart Bridge

## Homeowner benefits

- Create the right light for any occasion
- Easily check which lights are on or off, using the Lutron App
- Add even more convenience by integrating with Siri, Alexa, or the Google Assistant

***Ideal for the kitchen and living, family, and dining rooms***

## Add more smarts — without stress

- Easily add on to projects when you're adding retrofit light kits
- Simply plug the Smart Bridge into the router, download the Lutron App, and follow the instructions
- No neutral required —ideal for older homes

## Features to sell around

- Once you add the Smart Bridge, it's easy to add additional devices to the system
- Can integrate with the homeowner's favorite voice assistant
- The Smart Bridge doesn't depend on the home's Wi-Fi (if the Wi-Fi goes down, Caséta still works)
- Dim or brighten lights to create the perfect atmosphere for any activity

## Potential add-ons

- Additional switches or dimmers throughout the home
- Pico remotes for additional points of control

# nVent ERICO Cadweld Plus Impulse Exothermic Welding Control Unit

## CONNECT AND PROTECT

Our latest innovation, the **nVent ERICO Cadweld Plus Impulse Exothermic Welding Control Unit**, brings you the highest level of flexibility and ease of use of any of our ignition systems. Precision engineered, the control unit lets you choose your power source: from off-the-shelf AA-batteries to the rechargeable Lithium-Ion packs you have on your job site.

Why should you choose our latest ignition system? Safety, power and ease-of-use.

### SAFETY

- Self-closing trigger guard prevents accidental ignition, providing added safety
- LED ignition counter provides instant feedback on the timing of the ignition and is visible in sunny outdoor conditions
- Five second delay in ignition is a safety feature to allow the user to stop ignition, if necessary

### POWER

- Battery life indicator integrated into the unit for real-time updates on battery life; compatible with both AA and rechargeable batteries
- Includes AA alkaline batteries to power approximately 600 connections
- Rechargeable batteries from Milwaukee® or DEWALT® can be used to power approximately 1500 connections using a 4Ah battery
- Battery adapters available for use with either Milwaukee® or DEWALT® rechargeable batteries (sold separately)

### EASE-OF-USE

- High temperature lead with single molded insert into the control unit keeps the most-often replaced component of ignition systems more securely attached and reliable
- Easy-to-use alligator clip design of the termination clearly shows a positive connection in the viewing window
- Enhanced power tool style grip is ergonomic and easy to hold

# nVent CADDY Heavy Duty Telescoping Bracket

## CONNECT AND PROTECT

For ultimate stud-wall flexibility and snap-in time savings, choose the nVent CADDY Heavy Duty Telescoping Bracket and Box Mounting Plate. We created this product grouping after listening to the electrical contractor community, designing a solution that makes the job easier, repeatable and reliable. The result is a system based on a telescoping bracket that adapts to studs spaced 16" to 24", and a snap-in box mount with ultimate flexibility.

Made to work with data and electrical applications, choose the telescoping bracket and box mounting products for your next job; and provide your team the flexibility they need – with the confidence that it is installed right the first time.

### HEAVY DUTY TELESCOPING BRACKET

**nVent CADDY TB1624HD**  
[1573014]

- Maximize speed and job efficiency with snap-on box mounting plates (sold separately)
- Install box mounting plates with a just a snap; securely at any position in the telescoping bracket
- Rigid design eliminates the need for far-side support
- Repeatable, time-saving design is ready to use right from the box
- Compatible with wood or metal studs, spaced from 16" to 24"

Part Number	Material	Finish	Stud Spacing Adjustability	Box Size	Standard Packaging Quantity
TB1624HD	Steel	Pregalvanized	14 1/2" – 25"	4" 4 11/16" 5"	25 pc

### BOX MOUNTING PLATE

**nVent CADDY TB45P**  
[1573015]

- Works with our Heavy Duty Telescoping Bracket - just snap it in
- Flexible installation options also allow mounting direct to metal or wood studs
- Multiple key hole configurations for ease of installation and visual location confirmation
- Adapt with confidence to any situation; with low voltage extruded holes and the ability to remove and reinstall screws multiple times without compromise
- Works with vertically or horizontally-mounted single and double gang adjustable mud rings
- Ready for prefabrication and job-site adjustments with a specially-designed tab that holds strong without locking in place

Part Number	Material	Finish	Box Size	Standard Packaging Quantity
TB45P	Steel	Pregalvanized	4" 4 11/16" 5"	25 pc

# nVent CADDY Glider Electrical Box Attachment, Screwless

## FEATURES

- Secures electrical boxes to the TSGB without tools or screws
- Innovative design securely clips onto electrical box eliminating attachment screw
- Electrical boxes can be easily positioned along TSGB
- Allows closer installation of multiple boxes between or against the studs
- Allows for easy repositioning of electrical boxes
- Ideal for pre-fab assemblies
- Allows for fast and easy opening and closing

Part Number	Material	Finish	Standard Packaging Quantity
TSGLDR2	Spring Steel	nVent CADDY Armour	100 pc

## NEW PRODUCTS!

Elevate your design vision with just the flip of a switch with our Intrinsic Surface Mount LED Collection. The simple, classic design of these light fixtures can easily be installed into a variety of style applications in both residential and commercial settings. We offer two different sizes of surface mounts, both coated in a crisp white finish, to meet your unique design needs. Each smooth trim ring surrounds an integrated LED light fixture ready to emit general ambient lighting wherever it calls home in your design plan.

### Specifications:

- Diffused polycarbonate lens
- Integrated AC LED technology 3000K, 90 CRI, 1000 lumens (delivered)
- Diffused polycarbonate lens controls direct glare from the LEDs
- Lumen output and distribution comparable to a 75W incandescent lamp
- Dimmable to 10% brightness with many Electronic Low Voltage (ELV) & Forward Phase (TRIAC) dimmers
- CSA Listed for Wet Location applications
- ENERGY STAR listed
- Meets California Title 24 - JA8 - 2019
- Fixture installs to 4" Octagon metallic junction boxes, 4" Round non-metallic junction boxes and 4" x 1/2" round ceiling pan junction box.
- Maximum 26 luminaires on a circuit (without dimmer).
- 50,000 hour rated lifetime
- Dimmable to 10% brightness (See Dimming Notes)
- Mounting strap for outlet box included
- 6 in of wire supplied

# Square D QO Plug-on Neutral

Industry's Leading Feature for Load Centers and Advanced Function Circuit Breakers

Due to its overwhelming success, Square D by Schneider Electric now offers all QO single-phase, convertible main Load Centers, 12 spaces and greater with the industry's leading PoN architecture.

Designed for reliability, the QO™ Plug-on Neutral CAFI Circuit Breakers connect directly to the neutral bar, providing a time and labor-saving installation.

Accessories and covers listed for use with standard QO Load Centers are listed for use with QO PoN Load Centers as well.

QO PoN Load Centers are now listed for use QO Tandem Circuit Breakers (QO T non-CTL) which increase the number of circuits a Load Center can facilitate QO PoN Load Centers are also fully compatible with "pig-tail" circuit breakers.

## PoN benefits have proven to bring:

- **Fewer connections:** Saves time & Reduces mistakes that lead to call backs
- **Reduced wire in the gutter:** Easier to work, more professional appearance
- **Elimination of pigtail wiring mistakes** by providing a reliable neutral connection
- All these attributes contribute to a **lower total installed cost**

## 3M™ Temflex™ 165

General Use Vinyl Electrical Tape

Light to Medium Duty

Wire Identification

Harnessing & Bundling

Good Stretch & Adhesion

When you need a dependable general-purpose vinyl electrical tape, use 3M™ Temflex™ Tape 165. This affordable solution offers reliable performance for protective jacketing, harnessing, marking and insulating low voltage cables in non-critical applications.

### Product Highlights:

- Good stretch and flexibility and better general use bundling, insulating and sealing
- Suitable for moderate indoor & weather protected outdoor uses between 32°F to 194°F (0°C and 90°C)
- Ideal for general use insulation, color coding for phase identification, wire marking and safety
- Electrical insulation for wire and cable splices rated up to 600 volts
- CSA and VDE Certified, UL 510 Listed, IEC 60454-3-1-5/F-PVCP/90 and RoHS 2015/863/EU Compliant
- Available Colors:

Protective Jacketing

## Introducing new commercial grade strut

Eaton's B-Line Business offers the strength of a 12 gauge strut in a lighter weight design. C22 is available in solid and SH hole patterns and is available in 2 lengths (10 foot and 20 foot). The Commercial Grade Strut offering is compatible with B-Line's diverse offering in strut fittings. C22 is offered in a G90 pre-galvanized finish.

## Protector® Series

# GENERAC®

## PROTECTOR® SERIES Standby Generators Liquid-Cooled Gaseous Engine

Protector® Series

### INCLUDES:

- Two-Line LCD Multilingual Digital Evolution™ Controller (English/Spanish/French/Portuguese) with external viewing window for easy indication of generator status and breaker position.
- Capability to be installed with 18" (457mm) of a building\*
- True Power™ Electrical Technology
- Isochronous Electronic Governor
- Sound Attenuated Enclosure
- Closed Coolant Recovery System
- Smart Battery Charger
- UV/Ozone Resistant Hoses
- ±1% Voltage Regulation
- Natural Gas or LP Operation
- 5 Year Limited Warranty
- UL 2200 Listed

Note: 25-45 kW units are field convertible between natural gas or liquid propane. 60 kW units are built per fuel requirement and are not convertible.

\*Only if located away from doors, windows, and fresh air intakes, and unless otherwise directed by local codes. Applicable for 25kW and 30kW units only.

### Standby Power Rating

Model RG025 (Aluminum - Bisque) - 25 kW 60 Hz  
Model RG030 (Aluminum - Bisque) - 30 kW 60 Hz

## PRODUCT LAUNCH

# Plugload Controllable Receptacles

Half & Dual Controllable Decorator Receptacles

PASS & SEYMOUR

## Product Features & Benefits

**.032 inch thick, brass, triple-wipe** power contacts for lasting retention.

**Two drive screws anchor strap** to back body and face where abrupt removal torque is strongest.

**Can be used to control loads using WattStopper® DLM** and other building control systems.

**Also available: Half-controlled version**, that features a factory-broken split-circuit tab, allowing for half of the receptacle to be controlled.

**Auto-ground clip** assures positive ground.

**Controlled receptacle marking** is NEMA-approved and compliant with 2014 NEC®.

**Corrosion-resistant, plated steel strap** locked into face and back body to resist pulling away from face/body assembly.

**Tri-drive steel terminal screws. Internal screw-pressure-plate back and side wire capability.** Two back wire holes for more wiring flexibility.

26352CD-GRY

**PASS & SEYMOUR®**

## Specification Grade Weather-Resistant USB Charging Receptacles 15 & 20A, Tamper-Resistant

### Spec and install the toughest outdoor USB charging receptacle in the industry

WRTR15USBAC6, WRTR20USBAC6

Install the fastest Weather-Resistant USB charging receptacle on the market. Industry-leading charging capacity of 6.0A, shared between both ports. Charge your smartphones, tablets, and laptops up to 40% faster than 3-5A USB chargers, while enjoying the added safety of tamper-resistant receptacles that meet NEC® requirements for outdoor use. These USB receptacles are UL listed to UL498 for weather resistance and comply with section 406.9 of the National Electrical Code. Protects children: patented shutter system helps prevent improper insertion of foreign objects – now with black "invisi-shutters" for an invisible effect. The external brass back wire pressure-plate and posted side-wire terminal screws make installation fast and easy. RoHS compliant.

### Features & Benefits

**Posted terminal screws and external back-wire pressure plates** for more productive and reliable terminations.

**AC USB receptacles available in 15 and 20A, 125V Specification Grade and Hospital Grade.**

- **Complies with Section 406.9 of the National Electrical Code for weather resistance. Multiple color options available.\***
- **Efficient power supply** meets the Department of Energy (DoE) Level VI no-load power requirement of 100mW max for external power supplies.

\*Must be installed with a weatherproof cover. It is recommended that these devices are installed in a wall box measuring at least 3" x 2" x 2-1/2" to ensure proper NEC Article 314 box fill requirements. For retrofit applications a Weatherproof extension ring may be required on boxes with less depth than 2-1/2".

WRTR20USBAC6LA

**Available with (1) USB Type-A & (1) USB Type-C port or (2) USB Type-C ports** to charge the latest mobile devices.

**Reinforced nylon USB Type-A ports** to withstand abuse over the life of the product.

**Type-A and Type-C ports carry a minimum rating of 10,000 insertions.**

**AC USB receptacles are tamper-resistant to meet NEC. Patented shutter system – now with black "invisi-shutters" for an invisible effect preferred by end-users – helps prevent improper insertion of foreign objects.**

**Stainless steel auto-ground clips assure positive ground.**

### 3rd Party Compliance

cULus Listed, UL Listed  
Complies with test requirements UL 498, UL 1310, Federal Specification WC-596,  
CSA C22.2 No. 42, CSA C22.2 No. 223

See your Capital Electric Sales Representative for more information.

## ModPower

WIREMOLD

designed to be better.™

*Legrand is excited to bring to market the first product evaluated and listed to the **new UL 962A Supplement SD (Furniture Power Distribution Units for Portable (Moveable) Work Space Tables).***

These products are designed to allow for the primary unit to be connected to a wall or floor outlet, via a non-detachable power supply cord. Up to (5) additional units may be connected to the primary unit via interconnecting cords that utilize grounding-type Non-NEMA style connectors.

**\$18.99 ea.**

**21010407-A Smoke Alarm, AC/DC Powered, 10-Year Worry Free [930748]**

The Kidde i12010S is an AC/DC powered, ionization smoke alarm that operates on a 120V power source with sealed-in lithium battery backup. This alarm uses ionization sensing technology. Ionization sensing alarms may detect invisible fire particles (associated with flaming fires) sooner than photoelectric alarms. Photoelectric sensing alarms may detect visible particles (associated with smoldering fires) sooner than ionization alarms. Leading authorities recommend that both ionization and photoelectric smoke alarms be installed to help insure maximum detection of the various types of fires that can occur within the home.

**\$32.99 ea.**

**Kidde 21006377-N KN-COSM-IBA - Hardwired Combination Carbon Monoxide & Smoke Alarm [936341]**

The Kidde KN-COSM-IBA uses breakthrough technology to offer a fast response to real fires, including smoldering and fast-flaming, as well as protect you from carbon monoxide and dramatically reduce the chance of nuisance alarms. The Intelligent sensor technology combines the detection capabilities of an ionization smoke sensor – which is more likely to detect smaller, less visible fire particles, like those produced by flaming fires – with that of an electrochemical sensor, which is used to detect CO. Since carbon monoxide is present in all fires, having both detection chambers work together in one alarm is a breakthrough in the fire safety industry. When either sensor notices a potential hazard, it will communicate with the other. Depending on what is detected, the alarm will adjust its smoke sensitivity in order to better discriminate between a real hazard and a false one.

**\$36.99 ea.**

**Kidde KN-COB-IC AC Hardwired Operated Carbon Monoxide Alarm [97104]**

The Kidde KN-COB-IC is an AC wire-in carbon monoxide alarm that warns you and your family of dangerous carbon monoxide levels. It includes multiple contractor friendly features to ensure easy installation and minimal troubleshooting. This alarm interconnects with up to 24 Kidde devices (of which 18 can be initiation) including smoke alarms, CO alarms and heat alarms on one wiring network. The KN-COB-IC includes a 9V battery backup along with a 10-year limited warranty. 10-Year Life: "If your CO alarm was manufactured prior to 2013, it does not have a 10 year life."

**\$44.99 ea.**

**Kidde 21010408-N Worry-Free AC Hardwired Combination Smoke & Carbon Monoxide Alarm Sealed Lithium Battery Backup [936343]**

The Kidde i12010SCO is a hardwired combination smoke and carbon monoxide alarm that contains a 10-year, sealed battery backup. This alarm uses breakthrough technology to offer a fast response to real fires, including smoldering and fast-flaming, as well as protect you from carbon monoxide and dramatically reduce the chance of nuisance alarms. The Intelligent sensor technology combines the detection capabilities of an ionization smoke sensor – which is more likely to detect smaller, less visible fire particles, like those produced by flaming fires – with that of an electrochemical sensor, which is used to detect CO. Since carbon monoxide is present in all fires, having both detection chambers work together in one alarm is a breakthrough in the fire safety industry.

**It's 2021.  
Replace alarms now  
and don't think  
about it again  
until 2031.**

**Kidde 10-year sealed battery  
Smoke & CO alarms meet code  
and save money over the life of  
the alarm.**

**Kidde's 10-Year alarms use one battery for  
the life of each alarm to provide 24/7  
protection. Kidde 10-Year alarms are UL  
Listed, have a 10-Year sealed lithium battery,  
a 10-year life, and a 10-year warranty.**

**Make a resolution to protect your home, your family, and your customers with  
Kidde Fire Safety products. Available at your local Capital Electric branch.**

## As temperatures drop, the risk of carbon monoxide related illnesses rise.

Anytime a fuel burning appliance malfunctions or is improperly installed, CO can quickly reach dangerous levels in the home.

### CARBON MONOXIDE SOURCES

vehicles running in garages

fireplaces

gas powered heaters

gas & oil  
water heaters

gas cooking appliances

## Carbon Monoxide is the #1 cause of accidental poisoning deaths in the US.

CO is often called the silent killer because it is odorless, colorless, and tasteless. The only safe way to detect the harmful gas is to install a working CO alarm on each level of the home and near sleeping areas.

## Are your customers protected?

**Broan NuTone AE50110DCL FLEX DC Series  
Bathroom Exhaust Fan With LED light and  
Selectable CFM, 50-80-110** [1458093]

**Broan NuTone AE50110DC FLEX DC Series  
Bathroom Exhaust Fan With Selectable CFM,  
50-80-110** [1452047]

Ensure comfort in your bathroom with the Broan Flex DC™ Series Bathroom Exhaust Ventilation Van! This Energy Star certified multi-speed fan gives professionals the flexibility to handle new construction or room-side retrofit installations. This ceiling mounted bathroom exhaust ventilation fan has selectable CFM settings at 50, 80, or 110 running at a quiet operation of <0.3-0.4-0.9 sones and is recommended for bathrooms up to 105 sq. ft. The powerful ventilation reduces humidity to quickly eliminate fogged mirrors and manage moisture. The plug-in, permanently lubricated brushless DC motor is engineered for continuous operation. The compact housing is designed to mount directly to inboard joists, making retrofit or new installation applications easy and simple. Snap-fit Flange Kit will cover the edges of the cutout for a more professional finish and a tighter, leak-free seal. With our TrueSeal™ damper technology, Flex DC fans reduce air leakage by up to 50% compared to competitive models, resulting in better home performance via blower door tests and reducing cold and warm air back drafts. Retrofit installation is easy and can be done entirely room-side - no need to crawl up into your attic! It can be used over the bathtub or shower with the GFCI circuit. It can also be installed in a wall if mounted 8-ft. or more above the floor. Upgrade your bathroom with the Broan Flex DC™ Series Bathroom Exhaust Ventilation Van!

Save time and money!  
Arlington's new, low cost MC cable fittings in a variety of sizes, are super-convenient and cost-effective. Each fitting has a built-in end stop, but also comes with additional end stop bushings that accommodate different size cable bundles. ONE trade size fits several cable sizes!

If required, using an end stop bushing is fast and easy. There's no need to remove the strap. Just loosen the screws and insert the bushing that works the best with the cables you're installing in dry locations.

Our zinc diecast MC cable fittings cost much less than steel or malleable iron fittings – and reduce inventory.

**BRK 9120LBL First Alert Hardwired Ionization Smoke Alarm - 10 Year Lithium Battery Backup with Locked Battery Drawer** [1019321]

The BRK Brands, Inc. catalog no. 9120LBL (model 9120B) is a wire-in, 120V AC 60Hz single and/or multiple station smoke alarms specifically designed for residential and institutional applications including sleeping rooms of hospitals, hotels, motels, dormitories and other multi-family dwellings as defined in standard NFPA 101. The 9120LBL complies with UL217, CSFM, NFPA 72, HUD, FHA and other agencies that model their codes after the above agencies. They meet building codes where AC/DC with Silence smoke alarms are required. The alarms are interconnectable with up to 18 devices, of which 12 can be smoke alarms.

**\$39.49 ea.**

**BRK SC9120LBL First Alert 120V AC/DC Smoke and CO Alarm - 10 Year Lithium Battery Backup with Locked Battery Drawer** [1019322]

120V AC/DC Ionization Smoke/CO Alarm with a 10YR Lithium Battery Back-up. The battery drawer is shipped pre-locked so battery will not be discarded prematurely. Under normal conditions you should not have to replace the battery for the life of the alarm.

Easy Installation/Maintenance - Preferred features include a large opening in the mounting bracket for easy access to wiring. Keyhole slots in the mounting bracket eliminate the need to remove the electrical box screws for installation. A battery pull tab keeps the battery fresh until the home is occupied. Battery installation and removal can occur while the unit is mounted to the ceiling or wall via the side load battery compartment. Two locking features are provided to prevent battery theft and/or theft of the unit. Connection to AC power is made with a "Quick-Connect" wiring harness. Installation is quick, easy and cost effective.

**\$40.99 ea.**

For the Most Demanding Environments.

The Watertight Wiring Devices line can stand up to regular facility wash-downs, survive mud and standing water, and withstand severe weather exposure.

### Typical Applications

- Food Processing
- Water Treatment
- Agriculture
- Outdoor Entertainment
- Amusement Parks
- Factories

# WE PROTECT

We protect the most hazardous environments

For product solutions that span virtually every aspect of safety and security, turn to Federal Signal. You'll discover the world's most extensive product line of hazardous location, explosion-proof and safe area products designed to meet or exceed UL, ATEX, IECEx and other global certifications.

**FEDERAL SIGNAL**  
Safety and Security Systems

*Protecting people and our planet*

**FLUKE®**

**Fluke 67 MAX Clinical Infrared Thermometer** [1603268]

- Clinical infrared thermometer:  $\pm 0.5$  °F from 71.6 °F to 109 °F ( $\pm 0.3$  °C from 22 °C to 43 °C)
- Non-contact thermal scanner device for measurement of human body temperature
- Adjustable alarm visually alerts the user when the temperature exceeds a programmed limit.
- Offers small, lightweight form factor to slip in a coat pocket

**Fluke 1587FC 2-IN-1 Insulation Multimeter** [1063406]

The Fluke 1587 FC Insulation Multimeter features four powerful new diagnostic functions through the Fluke Connect Measurements app:

- Pi/DAR timed ratio tests with TrendIt™ graphs identifies moisture and contaminated insulation problems faster
- Memory storage through Fluke Connect eliminates writing down results, reduces errors and saves data for historical tracking over time
- Temperature Compensation through app for establishing accurate baselines and relevant historical comparisons
- Historical tracking and trending of assets identifies degradation over time, allows real-time decisions to be made in the field with Fluke Connect® Assets

**Fluke 9040 Phase Sequence Indicator** [53829]

The Fluke 9040 is effective for measuring phase rotation in all areas where three phase supplies are used to feed motors, drives and electrical systems. The Fluke 9040 is a rotary field indicator and can provide clear indication of the 3 phase via an LCD display and the phase rotation direction to determine correct connections. It allows rapid determination of phase sequence and has a voltage (up to 700 V) and frequency range suitable for commercial and industrial applications. The included test probes have a variable clamping range for safe contact, also in industrial sockets.

**Fluke 107 ESP CAT III 600V DMM ESP** [1490174]

The Fluke 107 is a compact, easy-to-use digital multimeter made to fit the way you work. It is the perfect first-pass troubleshooting tool: small enough to fit in a shirt pocket or work bag, tough enough to withstand daily use, and extremely simple to use. All without compromising safety. For everyday applications, where True-RMS accuracy isn't needed, the Fluke 107 delivers reliable measurements time after time.

### BUY ONE OF THESE

#### Milwaukee 2803-22 M18 FUEL™ 1/2" Drill Driver Kit [1606267]

The M18 FUEL™ 1/2" Drill/Driver is the Industry's Most Powerful Drill by delivering Up to 60% More Power, Up To 1.5" Shorter length and Up To 2X Faster Speed Under Heavy Load. The POWERSTATE™ Brushless motor delivers 1,200 in-lbs of torque and 2,000 RPMs, providing fast drilling through demanding applications.

### Get this FREE!

#### Milwaukee 48-11-1850 M18™ REDLITHIUM™ XC5.0 Extended Capacity Battery Pack

#### Milwaukee 2853-22 M18 FUEL™ 1/4" Hex Impact Driver Kit [1606270]

The M18 FUEL™ 1/4" Impact Driver is the Fastest, Most Compact, and Most Powerful tool in its class. The POWERSTATE™ Brushless motor delivers up to 2,000 in-lbs of torque and up to 30% Faster Driving speed, increasing your productivity for the most demanding fasteners on the job. With the Most Compact impact driver at only 4.59" in length, you will have more access in tight spaces. The REDLINK PLUS™ intelligence ensures maximum performance and protects from overloads, heating or over-discharge. The REDLITHIUM Battery Pack delivers more work per charge and more work over the life of the pack than competitors. The 4-Mode DRIVE CONTROL™ provides greater control over output speed and power for greater versatility. Self-Tapping Screw mode provides faster installation time by reducing stripping of fasteners.

#### Milwaukee 2804-22 M18™ FUEL 1/2" Hammer Drill Kit [1606268]

The M18 FUEL™ 1/2" Hammer Drill is the industry's most powerful brushless battery powered drill, delivering up to 60% more power. Its cordless body is up to 1.5 shorter and up to 2-times faster under heavy load than other models. The all-metal ratcheting chuck is the best-in-class giving users increased bit grip strength and corrosion resistance. The POWERSTATE™ Brushless Motor was purposely built for the brushless drill to provide Up To 60% more power than the competitive set. Built-in REDLINK PLUS™ Intelligence ensures optimal tool performance and provides overload protection to prevent damage to the tool and battery during heavy applications while still maintaining compatibility across the entire M18™ system. The REDLITHIUM™ High Output™ HD12.0 Battery Pack delivers more work per charge and more work over the life of the pack than competitors. In addition to the drill, this kit comes with two M18 REDLITHIUM XC 5.0 battery packs (48-11-1850), one M18/M12 multi-voltage rapid charger (48-59-1812), a side handle, belt clip, belt holder, and a durable carrying case.

**Milwaukee ELG3D  
Empire 125 Ft Green  
Self-Leveling 3-Point  
Laser [1605500]**

# SMART BUYS

Pricing valid January 1 - February 28, 2021

**Milwaukee ELGC Empire 75 Ft Green Self-Leveling  
Cross Line Laser [1605501]**

Self-Leveling 3-Point Laser provides a bright, durable and compact, alkaline powered laser level solution that can assist in a variety of layout applications. The bright green laser provides the user pronounced visibility when working with the laser level, even in well-lit conditions. This green laser level is powered by 4 AA Alkaline batteries giving the users up to 30-hours plus of continuous runtime, allowing for less downtime versus competitive alkaline laser solutions. The laser has a locking pendulum and rugged over-molded housing, allowing it to withstand impact if dropped and maintain proper calibration. This 3 point laser level also features powerful rare earth magnets that aid the user when splitting the beam over a steel track. The Green Self-Leveling 3-Point Laser (eLG3D) comes with a 1-year Limited Lifetime Warranty.

**Milwaukee 3510-21 USB Rechargeable Green 3-Point Laser  
[1605489]**

This USB Rechargeable Green 3 Point Laser is powered by REDLITHIUM™ USB, delivering you all-day runtime and uncompromised visibility. The high-intensity laser beams allow the green points to be visible up to 150' for fast, accurate point transfer.

**Milwaukee 3521-21 USB Rechargeable  
Green Cross Line Laser [1605490]**

This USB Rechargeable Green Cross Line Laser is powered by REDLITHIUM™ USB, delivering you all day runtime and uncompromised visibility. The high-intensity laser beams allow you to see the green lines up to 100' for fast and accurate leveling and alignment.

### Milwaukee 3522-21 USB Rechargeable Green Cross Line & Plumb Points Laser [1605491]

Milwaukee's USB Rechargeable Green Cross Line and Plumb Points Laser is powered by REDLITHIUM™ USB, delivering all day runtime and uncompromised visibility. The high-intensity laser beams allow you to see the green beams, lines, and plumb points up to 100' for fast and accurate leveling and alignment.

### Milwaukee 3622-21 M12™ Green Cross Line & Plumb Points Laser Kit [1605493]

The Milwaukee M12™ Green Cross Line & Plumb Points Laser provides all day runtime and best visibility in its class. Using the M12™ REDLITHIUM™ 3.0 CP Battery, you get 15+ hours of continuous runtime for ultimate productivity. The high-intensity green laser offers you superior visibility up to 125' for long-range applications.

### Milwaukee 48-35-1111 Responsive Laser Alignment Target [1605497]

- High Visibility Illumination
- Responsive Centering Alignment
- Wide Magnetic Base
- 1/4" & 1cm Increments
- Hang Hole
- High Contrast Reflective Surface
- Rare Earth Magnets
- For use with Green Lasers
- Limited Lifetime Warranty

### Milwaukee 48-35-1311 360° Laser Bracket [11605498]

This 360° Laser Bracket is an adaptable laser attachment that contributes to the fastest laser setup. With the Multi-Plane Rotational Adjustment, you can easily mount lasers on flat, horizontal, or vertical materials. The amplified rare earth magnets provide a strong hold onto metal surfaces.

### Milwaukee 48-35-1313 Laser Track Clip [1605499]

- Easy laser alignment, centering groove
- Strong, secure grip
- Low profile design

# ALL JACK™

## LIFT AND HOLD YOUR WORKPIECE IN PLACE

# iTOOLCo.

2020 NECA  
**ShowStopper**  
WINNER

Holds workpiece in place at various angles

One handed gas shock operation

Increase productivity and decrease fatigue using iTOOLCo's All Jack™. Install pipe, lights, cabinets, drywall, temporary dust barriers and much more with this innovative jack designed to lift and support the weight of your workpiece while you anchor it into position.

High ceilings and ladder work are not a problem for this dynamic tool. Reach from 58" to a staggering height of 13'6". The industrial gas shock ensures a snug, stable support that stays in place while you complete the installation. Once your workpiece is secured into place, simply remove the All Jack™ by releasing the shock. More powerful than a typical support pole, the All Jack's gas shock can handle your most challenging jobs.

Perfect for overhead & lift work

iTOOLCo AJ01 All Jack [1609758]

FASTER SAFER WORKSPACE

# GROUND ROD DAWG™

DRIVE GROUND RODS SAFELY IN SECONDS

Safely drive 1/2", 3/8", 5/8", and 3/4" rods from the ground in under a minute with iTOOLco's Ground Rod Dawg™. Once rod is driven down far enough the tool will hammer from top to finish driving rod under grade levels from ground.

**WE HAD A LARGE DATA CENTER THAT REQUIRED GROUND RODS TO BE DRIVEN ALL AROUND THE BUILDING.** The iTOOLco Ground Rod Dawg™ was a real time saver and provided safety we never knew existed. We used to drag a ladder around and drive rods from the top. Not anymore! Thanks for another fantastic tool iTOOLco.

- No adapter needed, easily clamp to conduit in seconds
- Dual capstans increase pulling speeds and maximize efficiency
- Two speed motor specially designed for 6,000 pound pulls
- Circuit breaker monitor for safe auto shutoff and extend motor life
- Force indicator prevents damage to puller
- Build in dolly for fast easy transport
- Ergonomic design eliminates heavy lifting during setup
- Right-angle sheave allows the operator to stand out of the direct line of force

# \*\*\*NEW TOOLS\*\*\* GREENLEE GATOR INSULATED CRIMPERS AND CUTTERS

-not in stock - special order only-

**NEW PRODUCTS!**

## NEW!! FIRST OF THEIR KIND INSULATED CRIMPERS AND CUTTERS

The new Greenlee Gator Insulated Series battery-powered hydraulic cutting and crimping tools feature a patent-pending design to help protect operators from electrical shock up to 1000V

The Tri-Insulation Barrier impedes voltage from discharging between the tool head and tool body.

Each tool undergoes dielectric testing as part of our production process to assure voltage protection up to 1000V.

Brush guarded heads, which aid in avoiding accidental contact with conductors.

### Insulated Crimping Tools:

EK6IDCVX – 6-Ton In-Line Indenter • EK622CVX – 6-Ton In-Line Crimper • EK628VX – 6-Ton In-Line Crimper • EK425VX – 6-Ton In-Line Crimper

Insulated Cutting Tools: • ESC50HVX – In-Line Cable Cutter • ESC35HVX – In-Line Cable Cutter • ES32HVX – In-Line Cable Cutter • ESC25HVX – In-Line ACSR Cutter • ES20HVX – In-Line ACSR Cutter

### Greenlee G1 Cordless G1 Versi-Tugger™ Handheld 1000 LB Puller

[1500842] Item not in stock - special order only.

- Handheld, Cordless Puller
- Constant pull force up to 600 lbs
- Unload Poly Line In Seconds After A Pull - Line slides off tapered capstan when spool wall is removed, no need to reverse the drill
- Pull 68% faster than manual pulling
- Works most 18v-20v cordless drills
- Adjustable boom - The 17" rotatable boom quickly adjusts to fit each job with 3 length positions to choose from. Extend the boom with 1" rigid conduit
- Universal Pulling Head - One-size-fits-all pulling head attaches quickly to any size conduit from 1/2" - 4"

## NEW PRODUCTS!

**\$16.99 ea.**

**NEW!! Klein Tools 60388 Heavy Knit Hat** [1613303]

- Knit hat is made from heavy knit to provide extra warmth in cold weather
- Limited edition vintage Klein Tools logo prominent on front of hat
- Durable construction with smooth seams and snag resistant
- Wide cuff keeps ears extra warm and blocks wind
- Snug fit for warmth and comfort in cold elements
- Made of 98% Polyester, 2% Spandex
- One size fits most

**\$13.50 ea.**

**NEW!! Klein Tools 60391 Knit Beanie** [1613304]

The Knit Beanie from Klein Tools provides a layer of protection from cold temperatures and the wind. Beanie is fleece-lined and ribbed-knit for a snug fit. Wear under a hard hat or alone. All black knit beanie features high-visibility yellow band on trim. Winter Gear from Klein Tools provides ultimate warmth options so you can focus on getting the job done.

- Knit Beanie is fleece lined for extra comfort and warmth
- Ribbed-knit for a snug fit
- Wear under a hard hat or alone

**\$61.78 ea.** <sup>79490</sup>

**Marley 2516W 120V 1500W 6FT Residential Baseboard Heater [79490]**

- Convection heats the room rapidly, without uneven hot and cold zones, providing comfort from floor to ceiling.
- Heat your space without kicking up dust or other allergens. The natural convection airflow doesn't rely on a blower or fan to move warm air throughout the room.
- Wire up and connect this baseboard quickly and easily with its large wiring compartment, dual knockouts and built-in cable clamp.
- For maximum efficiency, the unit converts all incoming electric energy into heat, according to Department of Energy standards.
- For worry-free warmth, these UL Listed baseboard heaters offer an overheat protection feature that prevents the unit from running when its air intake is blocked.

**\$43.95 ea.** <sup>100278</sup>

**Marley 2574W 277/240/208V 1000/752/564W 4FT Residential Baseboard Heater [100278]**

For quiet, comfortable heating, choose these baseboard heaters. These fan-free heating units deliver warmth and comfort in a low-profile housing that's safe to install on the wall or directly on carpet, tile or other flooring.

**\$281.99 ea.** <sup>243888</sup>

**Marley QPH4A Portable Unit Heater [243888]**

When the temperature drops, bring in some extra warmth with a heavy-duty portable heater. With the option to go freestanding or mount it on the wall or ceiling, it fits perfectly in your garage, workshop or jobsite.

- Two heat settings: 9,100 BTUs (2,667 Watts), 13,650 BTUs (4,000 Watts)
- Permanently lubricated, unit-bearing fan motor
- Three-way bracket lets you position unit on floor or other flat surface, or mount to ceiling or wall
- Adjustable thermostat to maintain heating comfort levels
- Compact and easy to carry with built-in handles
- 6 ft. cord included

**\$81.33 ea.** 961888 

**Marley CZ1512T 1500W 120V Compact Wall Heater [961888]**

For true zonal heating in a compact design that fits in anywhere, choose QMARK wall heater CZ1512T. Its fast-response heating element kicks in quickly, providing warmth for your bedroom, bathroom or hallway. The patented clip-n-fit system, thermal fuse and self-hold limit makes installing it on the wall safe and easy.

**Marley**  
Industrial Products

**\$361.17 ea.** 94495 

**Marley MUH0381 208V 3000W Unit Heater [94495]**

This rugged unit heater works well in industrial settings. Install it in factories, warehouses, garages, stairwells, power stations or mechanical rooms. Its powerful output capacity even makes it suitable for heating your loading dock or other indoor/outdoor transition spaces.

**\$399.43 ea.** 1017332 

**Marley AWH4404F 240V 4000/2000W Heavy-Duty Wall Heater [1017332]**

QMark / Marley high-capacity, heavy-duty fan forced wall heaters are designed for use almost anywhere in commercial or industrial areas requiring high capacity and quick recovery. They perform exceptionally well in such applications as commercial buildings, entryways, hotels, offices, restaurants and stores.
