

STAINLESS STEEL THREADED COUPLINGS

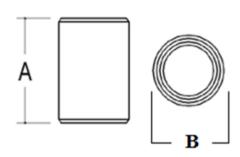

Features:

- · Manufactured in type 304 and 316 stainless steel to meet any stringent sanitary condition
- Polished with standard "brite" finish to increase corrosion resistance and aesthetic appearance
- · Included with each length of stainless threaded conduit
- Straight threads—NPS
- · No package qty. required

Certifications and Compliances:

- UL / cUL 6A Listed
- UL file number E230584
- Manufactured in accordance with CSA C22.1, Canadian Electrical Code, Part 1, NOM-001-SEDE, Standard for Electrical Installations, Inclusive for installation in accordance with Article 344 of ANSI/NFPA 70, "National Electrical Code" (NEC)

Applications:

Designed for use with stainless steel threaded conduit, and to connect threaded stainless conduit, nipples and other threaded fittings.

Industries Commonly Served:

- Food & Beverage Production
- Marine & Coastal Facilities
- · Chemical Plants
- Water & Wastewater Treatment
- Pharmaceuticals & Cosmetics
- · Refining & Extraction Sites
- · Petrochemical Operations
- Pulp & Paper Mills
- · Along with other corrosive environments
