BRIDGEPORT'S BETTER BODIES.

How do you get a better body? Bridgeport's high quality production standards make our conduit bodies the better choice for fast, hassle-free installation every time. From the laser-accurate threads on our rigid bodies to the foolproof versatility of our combination LL/LR bodies, Bridgeport conduit bodies are the top performers.

▶ **Threaded bodies for Rigid Conduit and IMC.**

Delivering easy access for inspection, pulling and maintenance. Aluminum units are available with covers and gaskets. Gaskets provide rain-tight protection and are impervious to most liquids and oil. Available mogul bodies and service entrance LBs allow larger access into a raceway for wire pulling. Service entrance LBs mount flush, allowing access to the interior of a conduit system for inspection, pulling and maintenance.

▶ **Set Screw Type conduit bodies for EMT.**

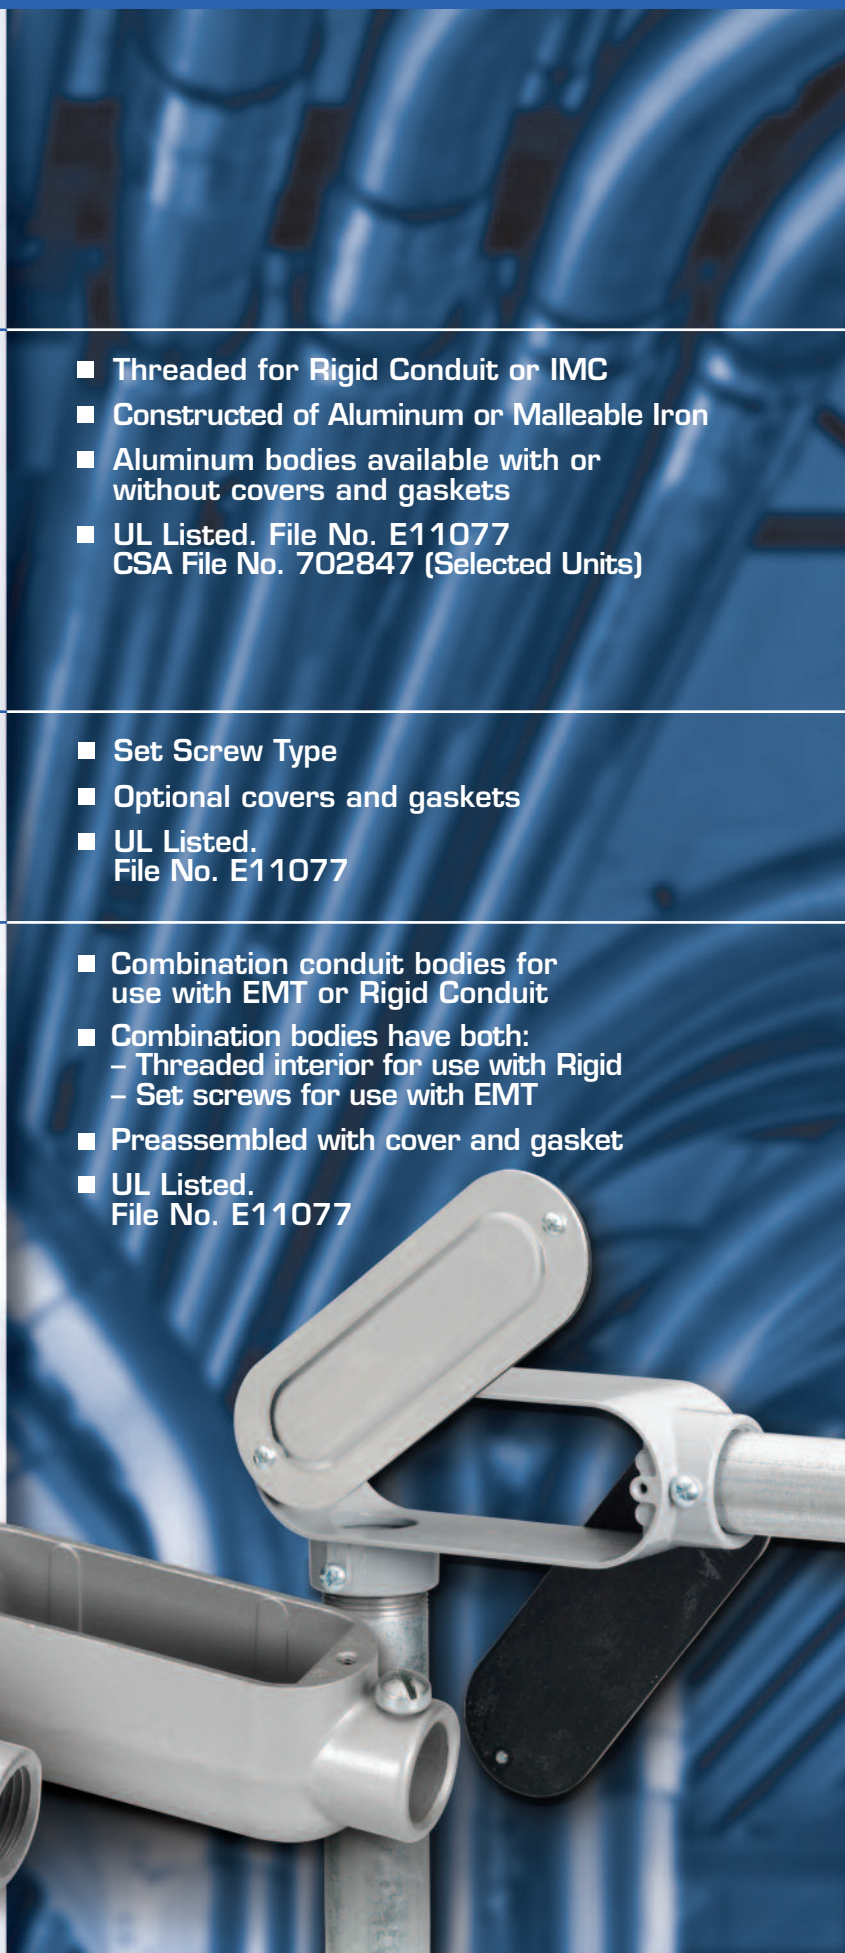

These rugged, copper-free aluminum bodies are available with optional covers and gaskets. Gaskets provide both dust and rain-tight protection and are impervious to most liquids and oil.

▶ **Combination conduit bodies for both Rigid and EMT.** Units have a threaded interior for use with rigid as well as set screws for EMT, reducing your inventory costs. Constructed of rugged, copper-free aluminum.
