4357-NM

Mighty-Merge® Multi-Port Transition Couplings

Used to join 14/2 to 10/3 armored or metal clad cable or 3/8" flexible metal conduit to EMT. A labor savings, compared to the traditional junction box installation. Ensure that cables are inserted such that the cable armor is visible in the inspection holes. The 4156 and 4157 are two port designs. The 4357 is a three port design and the 4457 is four port. The 5157 is a two port compression design ideal for government and school construction requiring compression type fittings. The 4357-NM is a three port coupling used to transition multiple nonmetallic cable to 3/4" EMT. Patented and Patents Pending.
