Stainless Steel FD Boxes

Our stainless steel boxes are constructed of a rugged 14 gauge type 304 stainless steel for resistance against heat, chemical corrosion and physical abrasion. The ultra-smooth finish strengthens the steel, making it easy to clean and sanitize. These boxes are available in one- and two-gang configurations and are intended for use with metallic rigid or flexible conduit.

LEVITON®

■ Available in single-gang and two-gang configurations

■ Welded 304 stainless steel construction provides resistance against heat, chemical corrosion and physical abrasion

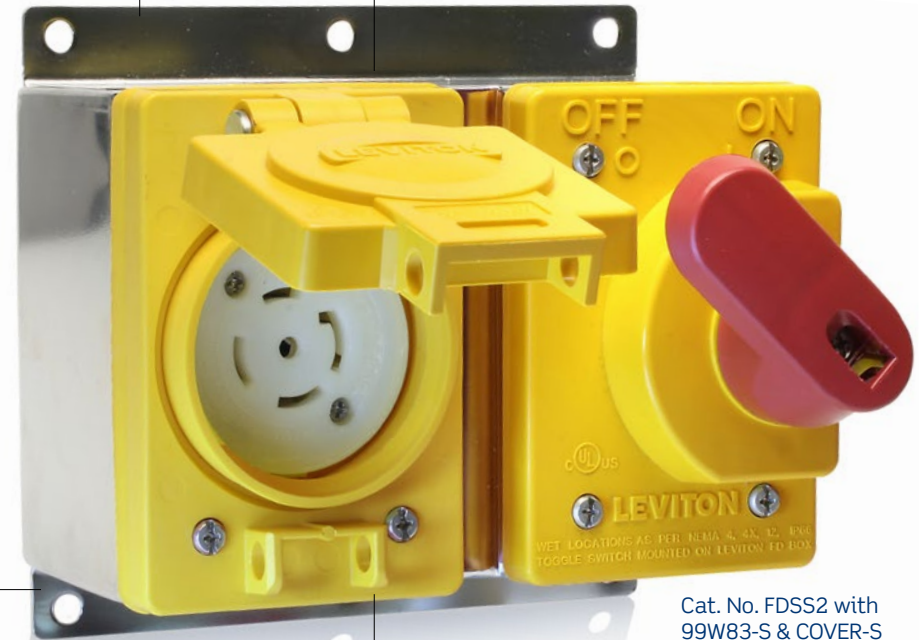

Suitable for use in wet and damp locations ■
