We are QED

Our Mission

We're more than an electrical distributor. We understand your needs and challenges, and we're constantly evolving our solutions to help you work more efficiently.

You never have enough hours in the day, and your team is stretched thin. We supply electrical products and specialized services that allow you to stay on time and in budget.

About QED

Founded in Denver in 1987, QED aims to provide high-quality products and services to the electrical industry. QED employs over 500 associates across 18 branches within Arizona and Colorado to serve residential and commercial contractors, industrial facilities, and OEM businesses.

Our Customers

Industrial End Users and Contractors

From new greenfield projects to upgrades/repairs of existing equipment, we are the partner for Industrial solutions. We are your distributor for design assistance, budgeting, training, and project consultation. Let us work as a branch of your team.

Maintenance Repair and Operations (MRO)

QED provides innovative solutions for wood, paper, printing, food and beverage, petroleum, chemicals, plastics, rubber, metal, electronics, and appliance manufacturers. Take advantage of our cutting-edge technology to produce high-quality products with speed and efficiency.

Original Equipment Manufacturers (OEM)

We work with various industries, including mobile equipment, HVAC and refrigeration, power and data generation, food processing, and more. As your industrial OEM partner, we will work with you to identify opportunities for growth and supply unique value-added services.

Our Verticals

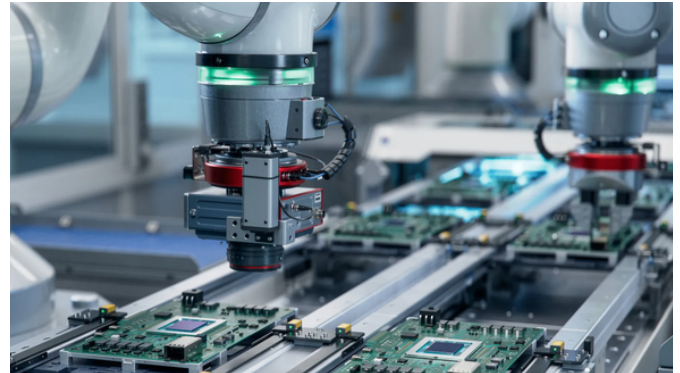

Heavy Industry

Manufacturing customers in Oil and Gas, Mining, Refineries, Steel/Aluminium Product facilities.

Discrete Manufacturing

Specialized manufacturing in High Tech, Automotive, Aerospace, Electronics and Machinery facilities.

Process Industry / Manufacturing

Focused on the Food, Beverage, Chemical, Pharmaceutical and Consumer packaged goods.

Water and Waste Facilities

Water and wastewater treatment plants are essential components to our communities.

Count on QED to meet critical deadlines and streamline your deliverables for project milestones.

Value Added Solutions

Digital Solutions

Order online anytime! Visit **qedelectric.com** or download our mobile app. Utilize our website 24/7 to place orders and view real-time inventory and pricing.

Tools & Safety Group

We stock a wide range of hand tools, power tools, general fastener products, personal protective equipment (PPE), and other safety products. Our Tools & Safety specialists can work with you to offer training and other services to meet your facility's safety requirements.

Sustainability

QED provides consulting for energy solutions that will build sustainability into your project. Our Energy Services Group (ESG) provides various services and solutions, including lighting and energy solutions, EV charging stations, solar and PV solutions, lamp recycling services, and utility rebate services.

Quality and Compliance

We have dedicated people focused on helping to fulfill and support your documentation requirements.

Pro Logistic Services (PLS)

Pro Logistic Services is much more than simply making sure your project has all the material you need. PLS allows you to save time worrying about receiving shipments, filing freight claims, auditing inventory levels and more. Use PLS to get total access and complete control of your project and take the headache out of storing and handling material on your job sites!

Lighting Solutions

QED offers complete photometric point-by-point layouts for precise light level calculations, interior and exterior light distribution renderings, Comcheck Energy Analysis for code compliance, as well as LEED compliance assessments.

Vendor Managed Inventory (VMI)

Our VMI associates handle on-site bin stocking and inventory control. We work with you to provide the best inventory solution possible.

Kitting & Assembly

We tailor solutions based on your requirements to save you time and money. Whether you're an OEM, system integrator or panel shop, our value added services can address your supply chain challenges.
