

P3354 thru P3370 - Concrete Inserts (16 in - 20 ft)

12 Gauge Concrete Insert (Channel Style) P3300 Series is ideal for anchoring structures and supports to concrete. This product allows easy installation before the concrete is poured, and attachment anywhere along its length using 1-5/8" Fittings, Channel Nuts or other products. It is perfect for applications that may need to be re-configured or re-anchored.

Features

- Up to 1,500 lbs capacity
- Includes closure strip and end caps unless otherwise requested
- Anchors are 8" (203 mm) on center, nail or anchor inserts to form every 16" (406 mm) to 24" (610)
- This product may be used for anchorage on ceilings, floors or walls.
- Channel dimensions are 15/8" wide x 7/8" deep x 12 ga. thick. Embedment tabs are spaced at 8" O.C. and have an embedment depth of 2-3/8".
- Being a pre-pour installation, it is ideal for applications with cracked concrete concerns and avoids the creation of Silica Dust during installation (see OSHA 29 CFR §1926.1153 and 29 CFR §1910.1053).
- Options: NC Suffix - No Closure Strip, with End Caps & Back Plates, WC Suffix - With Closure Strip, End Caps & Back Plates, X Suffix - No Closure Strip, no End Caps, with Back Plates
- The product may be supplied with Back Plates, End Caps and a Closure Strip to prevent concrete seepage into the channel
