

# MOUNTING ACCESSORIES

## TRUNNION MOUNT FITTINGS & BRACKETS

### TRUNNION MOUNT FITTINGS

Fittings are available to adapt trunnion mount floodlights to crossarms, poles, and bracket tenons. They must be ordered separately. Standard bronze Lektrocote® finish.

### WALL & POLE MOUNT BRACKETS

Brackets are available for single fixture mounting to walls and/or poles. They may be used with crossarm or slipfitter fittings described above and must be ordered separately. Standard bronze Lektrocote® finish.

### TENON TYPE BRACKETS

For use with steel and aluminum poles with 2<sup>3</sup>/<sub>8</sub>" OD tenon. Bent arms and fixture tenons are 2<sup>3</sup>/<sub>8</sub>" OD steel tubing. Bracket fitters are steel tubing with corrosion resistant hardware. All brackets except TPR Series and THB-31 have wire access with removable cover plate. Standard Lektrocote® primer.

### SQUARE STEEL BRACKETS

Units are constructed from four inch square steel tubing with 2<sup>3</sup>/<sub>8</sub>" OD tenons spaced 24" apart. They are designed to slipfit standard 2" (2<sup>3</sup>/<sub>8</sub>" OD) tenons. Four set screws and a centering ring allow a secure attachment. Removable end caps assist in wiring and provide protection from the weather.

### STEEL TCA SERIES

Crossarms are structural steel angle and U-bolts. Hardware is corrosion resistant. Standard finish is rust-resistant Lektrocote® primer.

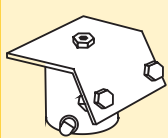

### ORDERING INFORMATION

#### TRUNNION MOUNT FITTINGS

(order as separate part #, field installed)

Catalog Number	Description	Weight	
		lbs	kg
HID FLOODLIGHTS			
4024C	Steel Slipfitter for 2" pipe (2 <sup>3</sup> / <sub>8</sub> " OD) tenon (bronze Lektrocote®)	4	1.8
4090	Heavy-duty Cast Iron Crossarm Fitting for horizontal trunnion (bronze Lektrocote®)	3	1.4
4944	Heavy-duty Wall Mount and/or Pipe Clamp Fitting; clamps 2" - 3" OD pipe	9	4.1
LR-30 <sup>1</sup>	Safety Retainer complete with crimp clamp and 30" long 1/8" stranded metal cable	.3	.14

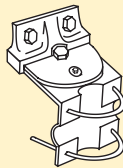

<sup>1</sup> For yoke (trunnion) mounted units only.
