Product Overview

Our M18™ Cable Stripper vastly improves the cable stripping experience. With no exposed blades, the cordless cable stripper provides safer stripping than with a knife. The cable stripper's compact, right-angle design allows you to maneuver it more easily in tight spaces with less strain on the wrist. The bushing design and adjustable depth gauge deliver cleaner, more accurate and consistent strips across all sizes. The cable jacket stripping tool is not only compatible with all MILWAUKEE® bushings but is also compatible with competitive quick-change bushings.
