Wireless Plug Load Control Driven by Simplicity and Efficiency

RFP, RF26252CH, RF26352CHCD

Plug Load Control requirements are being driven by expanded codes and standards with the common goal of energy efficiency in mind. These requirements can often pose challenges when laying out a building, constructing electrical systems, and identifying controlled receptacles. Legrand's suite of Plug Load Control solutions is designed with simplicity in mind, and helps to make plug load control requirements easy to understand, navigate, and implement.

Plug load control can be easily achieved by installing the Legrand RF Receptacle into the branch wiring system and tying the low voltage RF Signal Pack into an occupancy sensor and 24Vdc power pack (BZ200). The two are bound by a reliable wireless, RF connection. The RF Receptacle features an internal relay to switch the plug load on/off according to the sensor's command. The receptacle's feed-thru capability offers a simple and efficient means for energy savings and code compliance.

Features & Benefits

Receptacle compliant with
2023 NEC, CA Title 24, and ASHRAE 90.1.

Product meets requirements of UL498B:
Receptacles with integral switching means.

Binding button on face
also serves as a manual override.

Simple, three-step binding process
for wireless communication with RF Signal Pack.

Corrosion-resistant, plated steel strap
locked into face and back body to resist pulling away
from face/body assembly.

Feed-thru capability
allows for downstream control of multiple
receptacles.

**.032 inch thick, brass,
triple-wipe power contacts**
for lasting retention.

LED Indicator Light
on the receptacle guides binding process
and indicates power to the receptacle.

Permanently molded face
offers clear identification of controlled
receptacle for end users.

Auto-ground
eliminates the necessity to terminate
grounding conductor in device

RF26352CDW

3rd Party Compliance

RF Receptacles:

cULus Listed, UL Fed Spec Listed Complies with test requirements UL 498, UL 1310, Fed Spec WC596, CSA C22.2 No. 42, CSA C22.2 No. 223CA Title 24, and ASHRAE Energy Efficiency Standard 90.1.2021 International Energy Conservation Code (IECC), 2023 NEC, Part 6: Building Energy Efficiency Standards

RF Signal Pack:

Transmitter in compliance with Part 15 of FCC Rules, Class B

Tested to UL 244A

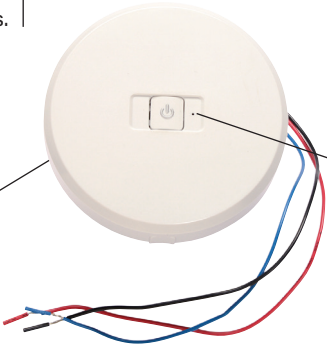

Features & Benefits

One RF Signal Pack
can bind to up to 16 RF Receptacles for convenient new and retrofit solutions.

Communication range
of 30 feet in worst-case environment;
up to 150 feet in ideal environment

Low profile design
allows device to blend seamlessly into any décor

Push-in locking tabs allow for convenient rotation
after installation to improve RF communication.

RFP

Operates in a quiet 915 MHz band.

Compliant with Part 15 of the FCC Rules.

LED Indicator Light
on the signal pack guides the binding process.

Two mounting options (Acoustic Tile Mounting and Keyhole Mounting)
offer productive solutions for fast, convenient installation.

Technical Specifications

Performance	
Electrical	
Dielectric Withstand Voltage	Withstands 1500V minimum
Maximum Working Voltage	125V
Current Interrupting	Certified for current interrupting at full-rated current
Temperature Rise	30°C at maximum-rated current
Input Voltage (RFP)	24Vdc from occupancy sensor's power pack
Input Current (RFP)	<40mA when transmitting; <1mA average
Mechanical	
Terminal Identification	Terminal identification in accordance with UL498 (brass, white, green)
Terminal Accommodation	#14 AWG - #10 AWG copper conductor only
Product Identification	Ratings are a permanent part of device
Wireless	
Communication Range	30 feet obstructed; up to 150 feet clear line of sight
Communication Channel	Operates on a quiet 915 MHz FCC band
Environmental	
Flammability	UL94 V2
Operating Temperature	Maximum continuous +60°C, minimum -40°C without impact
Material Specs	
RF Receptacles: Cover: Polycarbonate Back Body: Polycarbonate Mounting Strap: 0.042" Zinc-plated steel Line Terminals: 0.031" 260 Brass Back-wire Pressure Plate: 0.065" Steel Auto-Ground Clip: Plated steel Terminal Screws: Tri-Drive Plated steel #8-32 Hex-Head Grounding Screw: Tri-Drive Steel Binding Button: Polycarbonate LED: Green / Amber	
RF Signal Pack: Enclosure Material: Polycarbonate Mounting: Mounting hardware for acoustic ceiling tile and keyhole mounting template included	

Dimensions for
15 & 20 Amp

Dimensions for
Signal Pack

Warranty
1 Year
