Decorator Receptacles PlugTail™ Devices Spec Grade 15 & 20A, 125V

PT26252, PT26352

PlugTail™. The fastest, most consistent and reliable wiring devices — ever.

Factory-terminated devices and connectors mean that device installation is the same regardless of skill level of the installer. The UL-Listed connectors are keyed to ensure proper wiring installation into each receptacle. The connector simply snaps into the back of the device — no fussing with wires, stripping, or tightening screws. PlugTail devices are finger safe with no exposed terminals, so taping is not required. Now device installation is a snap!

The toughest and safest decorator receptacle available.

FEATURES & BENEFITS

Auto-ground clip assures positive ground.

Built-in connector features large brass terminal blades to ensure consistent, reliable electrical connections.

Large brass contacts snugly terminate on device blade terminals. Audible snapping latch assures connection, allows release.

.036 inch thick, brass, triple-wipe power contacts for lasting retention.

Three drive screws anchor strap to back body and face.

Plated steel wrap strap design for maximum durability and corrosion resistance.

PT26352-LA

Ultrasonically welded polycarbonate connector housing secures terminations and conductors in a UL Listed, finger safe housing.

Pre-stripped connector leads fasten to conductors, easier than standard pigtailed.

No exposed terminals create a finger safe application before, during, and after installation.
