

PLASMA LIGHTER XR

Flameless, Fuel-free, Rechargeable

The TRUE Plasma Lighter XR's next generation technology is flameless, fuel-free, rechargeable, lightweight, and easy to use. The unique, extendible, and flexible neck makes it safer to use for a variety of lighting tasks. The XR relies on plasma arc technology that is windproof up to 80 MPH and the rugged design is IPX6 rated for water-resistance and it even floats so it can handle whatever mother nature throws at you. The reinforced ABS body and rubberized exterior is rugged and impact resistant, so it is built to last. The XR relies on a lithium polymer battery that is USB-C rechargeable and can fully charge in as little as 1.5 hours.

ITEM NO. TRU-ACC-1001

DESIGN

- 300+ Activations on a single charge
- Dual-electrode, single arc pattern
- Flexible, extendible neck ignitor
- Windproof up to 80 MPH
- Water & Dust-Resistant (IP56)
- Rugged ABS plastic/Zinc alloy
- Protective locking cover
- Power/Charge indicator
- USB-C Rechargeable

OPERATION

Pushbutton Functions

- Each press of the push button will energize the lighter.
- If held continuously, the operation will be interrupted after 6 seconds.

Operation/Battery/Charge Status Indicator

- The product has a blue LED located on top of the product near the electrodes.
- This led indicates:
 - When the button is pressed, it lights solid while the electrodes are actively discharging.
 - When the battery is low/needs to be recharged ($\leq 10\%$), it flashes rapidly for 2 seconds, then turns off.
 - When the product is charging, it lights solid. Once charging is complete, the light turns off.
