

90° TRAY ROLLERS™

COMBINE TWO TO MAKE A
TRAPPING TRAY ROLLER

iTOOLco.

(TR9005)

(TR9010)

iTOOLco's 90° Trapping Tray Rollers™ install in three easy steps and are compatible with more construction substrates than the competition. Simply drop-over, tighten, and pin. Navigating difficult corners is a snap with 90° Trapping Tray Rollers. Two TR9010s combine to trap conductors and handle elevation changes. The combined tray rollers open and close from either side providing the utmost job site flexibility.

Watch Video

Two snap together in seconds
to guide trapped conductors.

Drops right onto supporting member
and secures into place quickly.

Cable and wire turns
corners smoothly.

FASTER SAFER WORKSPACE
