

# GROUND ROD DAWG™

DRIVE GROUND RODS SAFELY IN SECONDS

Safely drive 1/2", 5/8", and 3/4" rods from the ground in under a minute with iTOOLco's Ground Rod Dawg™. Once rod is driven down far enough the tool will hammer from top to finish driving rod under grade levels from ground.

**“WE HAD A LARGE DATA CENTER THAT REQUIRED GROUND RODS TO BE DRIVEN ALL AROUND THE BUILDING.** The iTOOLco Ground Rod Dawg was a real time saver and provided safety we never knew existed. We used to drag a ladder around and drive rods from the top. Not anymore! Thanks for another fantastic tool iTOOLco.
