

# Wiser Energy System

## Contractor Sell Sheet

Wiser Energy™ System from Square D,™ is an integral part of any smart home. Wiser Energy helps your customers keep tabs on their home by notifying them when devices are on or off and monitors energy usage in real time, as well as solar generation in solar applications. Adding Wiser Energy to your installations will broaden your competitive offer.

### Wiser Energy Advantage:

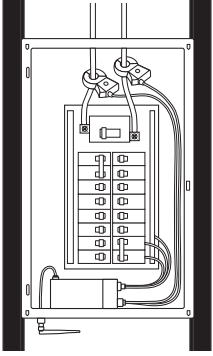

-  Easy to use intuitive app
-  Simple installation into a new or existing electrical panel
-  Takes less than 30 minutes to install and commission
-  Solar kit available to see generation and return on investment from a solar installation
-  Best in class support by Square D experts
-  Create long lasting attachment with your customers
-  Fleet Management view – Help reduce service calls with remote tracking of your customers' systems

## Selling Features/Benefits to Homeowners:

- Easy-to-use, intuitive, Square D version of the Sense App
- Always learning and self identifies devices in the home
- Set custom alerts for devices in a home such as when the garage door opens, the sump pump turns on, or when the dryer's done
- Works with a growing list of smart devices like Alexa®, Google Home™, Philips Hue, Wemo® Insight™ and some Kasa™ smart plugs.
- Displays energy consumption by appliance, i.e. refrigerator or pool pump, air conditioner or electric hot water heater
- 24/7 real-time view of energy consumption and production (Solar)
- Customers can set budgets to manage energy expenditures before getting a bill

## Stand out from the competition:

### Electrical Contractors/Solar Installers

- Expand your offer without expanding your workload
- Install in customer's 2nd home for easy on-line access to property consumption
- Diagnose problems remotely
- Use data for sizing of future solar installations
- Reduce service calls

### Homebuilders

- Prepare for new energy landscape
- Address growing smart home technology desire
- Demonstrate Energy Star™ appliance savings

## Specifications

Catalog Number	Technical Description
WISEREM	Wiser Energy Disaggregation Monitoring
WISEREMPV	Wiser Energy Solar Disaggregation Monitoring
WISERCTPV	Wiser Energy Solar CT Kit

## Basic FAQ:

- Q** How can Wiser differentiate a coffee maker from a fridge?
- A** The disaggregation software is able to differentiate electrical signatures. Wiser Energy also uses Crowd Sourcing for additional confirmation of electrical signatures
- Q** Does the electrician need to label the different devices?
- A** No. The device detection is automatic and only validation needed is from end user.
- Q** Does Wiser Energy fit in 400A panels?
- A** Wiser Energy currently works with main services up to 200A.
- Q** Is there a subscription fee for Wiser Energy?
- A** No.
- Q** Does it connect through WIFI?
- A** Yes, through 2.4 GHz connection
- Q** Can I train Wiser on my own?
- A** Wiser learns on its own through your regular use of devices at home. It may take up to a few months for Wiser Energy to identify certain electrical devices.
- Q** Can Wiser find all my devices?
- A** Wiser Energy cannot identify everything. Often, there are loads 'ie: cable box' and others that are constantly powered on. Often times consumers add new electronics to their home, and Wiser Energy will continue to monitor new electrical signatures as they appear.
